October 26, 2024

To Whom It May Concern

I am delighted to forward my recommendation of Ms. Eman Ahmad, daughter of Mehboob Ahmad, who used to work with us in National Automotive Components Pvt Ltd from July 1, 2024 to September 1, 2024. When she joined, she had just turned 16; however, her maturity, professionalism, and dedication with which she did her data analyst job were truly appreciated.

I recruited Ms. Eman Ahmad after discovering that she had acquired the Google Data Analytics Professional Certificate. She was a former employee's daughter, and through this connection, I learned about Eman's past and her successes. Thus, I had high expectations about seeing Eman's talent firsthand. She proved herself to be of great worth to our company within weeks.

During her internship, Ms. Eman handled important responsibilities like data collection and extraction, data cleaning and preparation, data analysis and exploration, data visualization, and report generation. She was very good at converting complex datasets into actionable insights through the application of her analytical skills and attention to detail, thus contributing greatly to our projects.

Ms. Eman portrayed an extraordinary amount of work ethic and hard work towards the results achieved. Ms. Eman had passion for knowledge and eagerness to undergo challenges, which distinguished her from all others. Lastly, her collaborative skills were great, having been a perfect team player when working with fellow colleagues while providing helpful recommendations and great ideas that have promoted a supportive working atmosphere.

Ms. Eman portrayed maturity and professionalism way beyond her years. I am sure that in the near future, she will be an outstanding performer in whatever she does and I would recommend her fully for any opportunities she may pursue.

If you have any other questions or need more information, please contact me.

Sincerely,

Mr. Salman Saleem
Chief Executive Officer
